

CANCER ALLIANCE INVITE YOU TO THEIR

PATIENT ENGAGEMENT WORKSHOP

WE VALUE YOUR VIEWS

The Cancer Alliance team, in collaboration with Healthier Lancashire and South Cumbria ICS, invite you to join their first ever virtual patient engagement workshop

Healthier
Lancashire &
South Cumbria

Cancer
Alliance

Would you like to get involved?

Help us personalise the solution

We are looking to develop a Patient eHealth Platform for Lancashire and South Cumbria. To help us personalise and co-design the platform, we would like to speak to our citizens with lived experience of Cancer.

This secure, user friendly web-based platform is designed to allow individuals to become more involved in their health care.

The platform has the potential to increase interaction between the patient and their care teams in a virtual way, beginning with patients who are on a supported self-management follow-up pathway. The platform will provide our patients with secure access to their medical records, providing easy access to relevant health information.

Patients will be able to manage their follow-up care and two-way communication between patients and their care teams will allow for results to be shared and virtual consultations to take place.

This digital platform will help deliver a better health service and overall experience to our patients.

If you are interested in being a part of the workshops to design this platform, please email bfwh.lsccancer.cell@nhs.net or speak to your Cancer Nurse Specialist or Cancer Support Worker.

*the workshops will take place online, using Microsoft Teams. Should you choose to participate you will be sent a website link via email and would access Microsoft Teams through Internet Explorer. The team facilitating the workshop will be able to support you in accessing Microsoft Teams and the virtual environment.
